Variable orientation article support - has saucer shaped base and support
with mating flat faces screwed together

FONDERIE MOD STRAS 25.04.74-FR-015143

P27 Q68 (26.12.75) A47g-29/08 F16m-11/12 F16m-13

The decorative support is for objects which may be set
at a variety of angles. It consists of an inverted saucer

surface (9) an intermediate layer (10), resistant to electro-
lytic action and a non-magnetic surface finishing layer (12).
The upper saucer has the same shape as the object to be
supported, preferably spherical, so that intimate contact is
made at whatever angle the object is set. Electrolytic treat-
ment may be used for the exterior surface finish. 25.4.74
as 015143 (6pp)

u 21.11.1975.
